

PLM-Wisconsin Users Group Summation

PLM-WUG! What is it? What can it do for me? I am sure these are a few questions that you have after receiving this email notification of Membership dues. Let me take a few minutes to explain exactly what PLM-WUG is.

PLM-WUG is a not-for-profit origination designed to aid UGS users in the software they use in their everyday work. The User Group has governing by-laws and a four-member Board of Directors that are elected by user group members. The board is involved in the planning of events to bring the user group together to aid in the training and improvement of every user member. All users of a member company that has paid its membership dues are allowed to attend these user functions.

User functions include a collaboration of UGS, PLM World User Group, and the 4-panel board of directors. A few examples of this collaboration are the use of the AMTC center at Moraine Park, users usually get together to network on software, as well as receive instructional aid from UGS. New techniques, software updates, and what's new in the world of UGS Software are among the covered topics that are provided by UGS.

Overall PLM-WUG incorporates the best of the industries users and the best of today's technology and helps to aid the improvement of the Industry. To be part of this great opportunity, please fill out the membership dues form and return as soon as possible.

The cost of PLM-WUG membership is an annual fee of \$50.00 per company. If your company wishes to renew its membership or join as a new member, please return completed Membership Form along with your payment.

The annual company membership fee is used for many activities, including quarterly dinner meetings, technical meetings, plant tours and UGS version update seminars. PLM-WUG also sends an elected officer to the National PLM World Conference as a representative of the Wisconsin Users Group Chapter. This representative is able to lobby, show support, and present concerns and problems involving the products. Following the convention, a presentation is given by our representative to report back to the WUG community.

If you would like further PLM-WUG information please contact your local sales representative.
